

TD – WISHLIST BLOCK

This module allows your customers to create and manage wish lists of products in your shop. The module allows you to display the wishlist block on the top of page.

Screenshot of Module Settings

The screenshot shows the configuration interface for the 'TD – WISHLIST BLOCK' module. The title bar reads 'CONFIGURATION'. Below the title, there are four settings, each with a label and two buttons: 'YES' (highlighted in blue) and 'NO' (grey). The settings are:

- Enable Product Wishlist: YES (selected), NO
- Display Wishlist Button in Product List: YES (selected), NO
- Display Wishlist Button in Product Page: YES (selected), NO
- Display Wishlist Button in Header: YES (selected), NO

In the bottom right corner, there is a 'Save' button with a floppy disk icon.

- **Enable Product Wishlist** : It allows customers to add products to wishlist on site. If disabled, Wishlist features is not working.
- **Display Wishlist Button in Product List** : If enabled, wishlist button will be displayed in product list page.
- **Display Wishlist Button in Product Page** : If enabled, wishlist button will be displayed on product page.
- **Display Wishlist Link in Header** : If enabled, wishlists link will be display in header.
