

TD – COMPARE PRODUCTS

This module adds Product Comparison feature to your store. This will help your store visitors to become customers by clearing their doubts with the right choice of product among your collection of products. Your customers can use this feature to compare similar products. Your customers will respect this facility and choose your store for all their future shopping.

- Screenshot of Module Setting.

The screenshot shows the 'SETTINGS' page for the 'TD – COMPARE PRODUCTS' module. It contains four toggle switches, all of which are currently set to 'YES':

- Enable Product Comparison: YES (selected), NO
- Display Compare Button in Product List: YES (selected), NO
- Display Compare Button in Product Page: YES (selected), NO
- Display Compare Link in Header: YES (selected), NO

Below these toggles is a text input field labeled 'Product comparison' with a red asterisk indicating it is required. The field contains the number '3'. A 'Save' button is located in the bottom right corner of the settings panel.

- **Enable Product Comparison** : It allows customers to compare products on site. If disabled, Comparison features is not working.
- **Display Compare Button in Product List** : If enabled, compare button will be displayed in product list page.
- **Display Compare Button in Product Page** : If enabled, compare button will be displayed on product page.
- **Display Compare Link in Header** : If enabled, compare link will be display in header.
- **Product Comparison** : Set the maximum number of products that can be selected for comparison. Set to **0** to disable this feature.
