

# TD – THEME SETTINGS

This modules comes with Powerful theme options, where you can configure layout, color, fonts and many more.

## - Screenshot of TD – Theme Settings in General tab

The screenshot displays the 'TD – Theme Settings' interface in the 'General' tab. The sidebar on the left contains the following navigation links: General, Typography, Header, Menu, Content/Pages, Footer, Global Options, Responsive, Cookie Law, Maintenance, Custom Css/Js/Codes, and Import/Export/Reset configuration. The main content area is divided into four sections:

- General Layout:** Includes 'Site Width' (BOXED, FULL WIDTH) and 'Container max width' (1200).
- Body background:** Includes 'Background' settings (Color, Repeat, Position, Size, Attachment) and a 'Select Image' button.
- Preloader:** Includes 'Status' (NONE, CSS3, IMAGE), 'Preloader background' (#ffff), 'Preloader icon color' (#428bca), and 'Preloader Style' (a selection of five icons).
- Back to top:** Includes 'Status' (ENABLED, DISABLE), 'Background color' (#428bca), 'Content color' (#ffff), 'Border' (none), 'Background hover color' (#000000), 'Content hover color' (#ffff), and 'Border hover color'.

A 'Save' button is located at the bottom right of the settings area.
